

The Southeast Cement Association and Portland Cement Association present  
a comprehensive study in

# Roller-Compacted Concrete Pavement: Design and Construction - Georgia

**Thursday, November 13, 2008**

Hilton Atlanta Airport  
1031 Virginia Avenue  
Atlanta, Georgia 30354  
(404) 767-9000

## Who should Attend

This technical course is structured for the designer, contractor, developer, construction manager and other professionals involved with designing, specifying and construction for roadway, parking lot or general site construction/reconstruction. While the course is open to all, we believe it will be most valuable to consulting engineers and architects, property owners, construction managers and geotechnical/construction testing consultants.

## Seminar Agenda

- 7:45 am — 8:15 am **Registration & Continental Breakfast**
- 8:15 am — 8:30 am **Welcome & Opening Remarks**  
Bob Nickelson, Southeast Cement Association
- 8:30 am — 9:45 am **RCC Applications and Design**  
Wayne Adaska, P.E., Portland Cement Association
- 9:45 am — 10:00 am **Break**
- 10:00 am — 11:15 am **RCC Construction and Project Case Histories**  
Will Gray, A. G. Peltz Group
- 11:15 am — 12:00 am **Project Report—Houston Port**  
Jim McQueen, P.E., Port of Houston Authority
- 12:00 am — 1:00 pm **Lunch**
- 1:00 pm — 1:40 pm **GDOT Applications of RCC**  
Bryant Poole, P.E., Georgia DOT
- 1:40 pm — 2:20 pm **Project Report—City of Chattanooga**  
Ariel Soriano, P.E., City of Chattanooga
- 2:20 pm — 3:00 pm **Break**
- 3:00 pm — 3:45 pm **Other Projects of Interest**  
Robert Taylor, P.E., ACPA-SE Alabama
- 3:45 pm **Closing Remarks—Adjourn**

- Value-Engineered Pavement
- Impressive Initial Cost
- Quick Construction
- Low Maintenance

**Fee: \$150**

# Roller-Compacted Concrete Pavement: Design and Construction

**Thursday, November 13, 2008**  
Hilton Atlanta Airport  
1031 Virginia Avenue  
Atlanta, Georgia 30354  
(404) 767-9000

## Course Description

Experience the innovations that will save your construction costs and time while providing a long-term pavement. Roller-Compacted Concrete (RCC) has been associated with large scale projects. In the last 10 years, innovative applications and production methods have grown exponentially. Currently, RCC is being specified for applications including new residential roads, urban street reconstruction, industrial and commercial site paving, ports, lumber facilities, military bases, interstate shoulders, highway bases, park and ride lots, maintenance facilities, and more.

This workshop will include information on the latest research as well as design and construction procedures for RCC, to include appropriate applications, mix design, materials engineering, pavement design guidelines and construction techniques. It is the intent of this course to provide a thorough technical education on RCC by experienced professionals from the design and construction industry. This education will put you on the cutting edge of value-engineered pavements. All attendees will receive a binder of information on RCC and a copy of the RCC-Pave Design Software.

## Seminar Location

**Hilton Atlanta Airport**  
1031 Virginia Avenue  
Atlanta, GA 30354  
(404) 767-9000

## Seminar Accommodations

SCA has reserved a limited block of rooms at the **Hilton Atlanta Airport** at a special rate of \$179+ +. Please call (404) 767-9000 to make your reservations under our **group code "RCS"**.

**Room Block deadline: Monday, October 27, 2008**

### Driving Directions:

**From I-85 South:** Take Exit 73A (Virginia Avenue). Turn right onto Virginia Avenue at end of exit ramp. The Hilton Atlanta Airport will be 3 blocks on the left.

**From I-85 North:** Take Exit 73 (Virginia Avenue). Turn left onto Virginia Avenue at end of exit ramp. The Hilton Atlanta Airport will be 3 blocks on your left.

**From Atlanta's Hartsfield-Jackson International Airport**—Shuttle service is available from the airport to the hotel.

## How to Register

Please complete and return this form with your payment to:

MaryLynn Stovall
